

Fibonacci

A BOUTIQUE OF FINE HANDCRAFTED ARCHTOPS

MERRY CHRISTMAS & HAPPY NEW YEAR!

2024 has been a thoroughly enjoyable year for us here at Fibonacci Guitars. We made further investment in equipment which has helped to consolidate our position in the market as one of the premier archtop builders in the World offering a comprehensive range of carved guitars as standard. We have introduced some great new products, like the Diablo15, originally inspired as a custom build for Garreth Fowler, and the terrific new Alessio Menconi Signature. We have continued to enjoy working with some great Artists, and have had the pleasure of working with some terrific customers who have since become friends. So a big thank you for all your support over the year.

Arthur - Head Luthier

Graham, Andrew & Martin

Jon Dickinson Pickups

2025 will be as exciting for us as 2024 has been with the release of a 7-string Signature model with dates to be announced in the not too distant future, and the release of 'Cracking The Code', a Fibonacci Guitars Artist inspired album recorded in our very own recording studio, release date TBC. So 2025 is certainly panning out to be every bit as busy as 2024 has been.

And looking forward to a new year, gives us a moment to reflect on the one we are saying goodbye to. Fibonacci Guitars would not be here if it wasn't for the great team who make it what it is today. We would therefore like to say a BIG thank you to the team....luthier's, Arthur, Andrew & Pete, who always come up with the goods to make your guitar as great as it can be, CNC guru Stephen for dragging us into the 21st century, Martin Taylor MBE and Nigel Price for helping to keep the 'bar' at a very high standard, John & Chris at Bow Finishing for giving us some of the finest sunbursts and nitro finishing around, Mark who hand turns our knobs, Jon Dickinson for making great pickups for us, as does Mark Stow at OX4, Les Davidson for bringing a wealth of guitar knowledge to the table, Tony Fucile for his inspiration and constant enthusiasm, Bireli Lagrene, Gareth Fowler and Alessio Menconi for helping to inspire new projects, and Giorgio Serci, Andrea Rinciari, Alban Claret, Jason Henson for their stellar guitar work on 'Cracking The Code'.

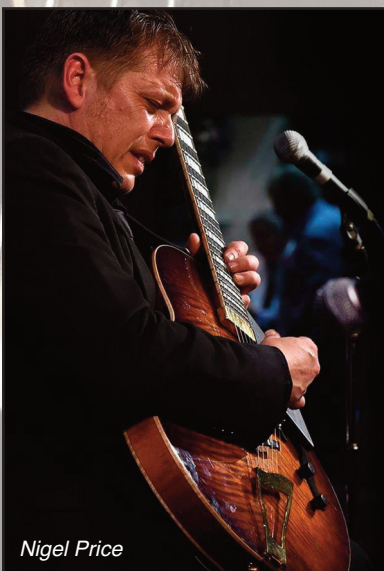

Alban Claret & Gareth Fowler

Giorgio Serci

Martin Taylor & Bireli Lagrene

Nigel Price

We would also like to give a big shout out to Derek at Guitar Village, Mak at Mak's Guitars, Agents John VanWagoner in the USA, Dusty in Spain and the UK, Frank in Germany, David in France, Frank in Austria, Mads in Denmark. But lets not forget that Fibonacci Guitars would certainly not be where it is today without the trust shown in us from our old and new customers.

We wish you a very Merry Christmas and a Happy New Year. See you in 2025!

Alessio Menconi
